## VICTORIA CONTRACTS /MANNINGTON

Partnering with the Chicago office of architectural practice HOK, Mannington Commercial, distributed in the UK exclusively through Victoria Carpets Contracts Division, has launched Elemental Spectrum, a carpet tile collection that draws inspiration from the building blocks of the world we live in. Focusing on the periodic table of Elements, Mannington Commercial and Tom Pelsol of HOK Chicago looked at the visual spectrograph readings of fundamental elements such as Carbon, Hydrogen, Iron and Zinc when creating a linear carpet tile that will make a striking impact in corporate, education and healthcare facilities.

## LLADRÓ

### DECOREX

The Naturofantástico collection by Lladró uses a combination of the organic and fantasy to create everyday objects such as lamps, vases, candelabra and bowls. Familiar forms are decorated with marine and vegetal motifs conjured up in the imagination of Lladró artists. The delicacy of white porcelain can be further highlighted with grey, green or blue tones, or with gold lustre combining gloss and matte finishes.

## NORDPLAN

Designer Jacob Jensen has totally redesigned Nordplan's range of mobile and static storage solutions. The result is Shade E9000, which is an electronic mobile storage system: the ultimate in high-density filing and storage, combining many state-of-the-art features and suitable for any location. The Nordplan Shade range is not only simple to operate, but is also reliable and robust, and can be easily reconfigured and relocated. Shade blends perfectly into any modern working environment.

## QUARTIER

Birdcage is a classic indoor doghouse for smaller dogs, with a filigree structure that encourages the pet to be social. The clear form of the doghouse is accentuated by its materials and brilliant colour. In contrast to the shining surface of the chrome frame, the felt strings of the roof have a reflection free surface that are individually adjustable. All covers are removable and washable.

## HACEL

The Aer range of lighting offers performance and engineering excellence by stylishly integrating both ambient and accent lighting. Aerline (shown) boasts a choice of energy efficient T5 fluorescent luminaires for general lighting, including dimming and emergency version. Airport luminaires provide accent lighting in the form of single/twin head power spots. All are available in trunking, surface or pendant versions each manufactured with extruded aluminium and precision die-cast end caps.

## COATHANGER

Coathanger is a minimalist wardrobe consisting of a cable and a basic coathanger. Several sets mounted on the ceiling form a surprising sculpture that is both functional and decorative. The set contains wall plugs and detailed mounting instructions. It also comes supplied with accessories to store keys and bags.

## KAFKA GOES PINK

Lebanese designer Fady Saliba was inspired by old lanterns and conventional light bulbs when creating the Bulbdrops chandelier. Completely handmade in copper, the chandelier (pictured) has 17 bulbs hanging from a hammered plate with cables of different lengths. It is available in various sizes and quantity of bulbs, in all tones of copper from bright silver to black, including brass, nickel, natural copper bright, matt or antique.

## EMPANADILLA & HUNE

The concept of the project Love Story was born out of a workshop undertaken in Scuola Politecnica di Design Milan by Studio Empanadilla. It is based upon a love story between two objects – a candleholder and a candle. The candleholder has an indent in its base with the shape of a heart and as the candle melts, the wax fuses both elements by filling the base.

## VORWERK

The brainchild of German architectural powerhouse, Hadi Teherani and Vorwerk Carpets, SCALE is a collaborative effort at every level, from the creation of different sizes and shapes to the GreySCALE and ColorSCALE colourbooks; the input of award-winning architectural thinking is plain to see. Each element of SCALE is designed as a distinct entity, yet can be linked to create a floor which suits the architecture. It is available in six textures, five formats, five patterns and seven colour groups, with both tufted and woven faces in INVISTA Antron carpet fibre.
